

WISE Mystery Shopping Services

WHY. Effective, invisible and unbiased Mystery Shopping is impossible to do yourself. Mystery Shopping keeps your team on track and focused on your mission. This is not a game of “gotcha.” Instead it is a great way to understand where your team’s performance is at today, identify opportune areas, then track and celebrate improvements over time.

WHAT. Our program is based on the WISE Mystery Shopping Scorecard, which ensures consistency of feedback over time and is also a great tool for individual coaching. Shops can cover winery tasting room, tours, phone calls, club membership and online shopping guest experiences. The WISE scorecard consists of over 80 questions, and wineries may also add in their own questions if there are specific areas in which they would like more detailed feedback.

WHO. Our mystery shoppers are unbiased third-party, industry professionals who understand WISE standards regarding guest experience, sales skills and industry best practices. They are all WISE trained for understanding best practices and standards. WISE Mystery Shopping is a natural extension of our courses in which mystery shopping is assigned as homework. Over the past few years, we’ve conducted over 5,000 mystery shops and have been tracking industry trends, which gives WISE a unique prospective.

WHEN. We recommend a full round of mystery shops per location three times a year. This rhythm gives wineries enough time to review the results, implement changes, and measure again. It is best is to get several data points within a short period – e.g. six shops on different days/times over a few weeks – to ensure different associates are shopped.

COST. Single winery program fee is \$350, corporate is \$1,000 plus \$350 per property, per program, including summary report of each program: standard in-person tasting-room shop (\$350 per shop or \$400 if tour or food pairing is included), phone shop (\$125 per), text shop (\$50) and wine club (\$350 per). Out-of-pocket tasting (or tour & tasting) fees for two & wine purchases (if requested) will be reimbursed at cost. See breakdown of costs on last page. If you would like WISE to deliver results to the team (without naming who was shopped), it is \$400 for the hour (1½ hour). For one-on-one coaching for managers (to then coach their team based on the results), WISE offers this for \$750 per winery/location.
